

## Fizzy Flo - refillable bottle with foam pump + 2 tabs

### GENERAL

Probiotic foam soap in tablet form with matcha perfume.

- Gently cleanses hands with long-lasting protection
- Respects the pH of the skin and nourishes the natural microbiome
- Reduced consumption compared to liquid hand soap
- Avoid the use of disposable plastic with the 100% plastic-free packaging & reusable bottle
- Save up to 99% CO2 in transport, 99% in storage space & be sure of a safe and exact dose thanks to the tablet format

Today, many ready-to-use hand soaps in single-use plastic packaging are being used, while they mostly contain water. Greenspeed offers a solution to this problem: Fizzy Flo. The Fizzy Flo tabs are packaged in 100% plastic-free packaging and are best used in combination with the reusable glass bottle. In this way you help to significantly reduce the use of plastic. Thanks to the efficient tablet format there is no need for us to unnecessarily transport water, as you simply add this yourself. In this way we save up to 99% CO2 in transport. The compact tablet format also saves you 99% in storage space. The Fizzy Flo tabs additionally ensure easy refilling of the bottle, so you never run out of hand soap.

The probiotics in Fizzy Flo help to gently clean hands. They also nourish the skin's natural microbiome, providing long-term protection. When the probiotics re-enter the ecological cycle after use, they actively contribute to water purification and the maintenance of a natural microbial balance. The microorganisms are safe to use and 100% natural.

pH 6

### USAGE

1. Fill the bottle with tap water to the 'max' line.
2. Add 2 Fizzy Flo tabs and allow them to dissolve.
3. The foaming soap is ready to use!
4. Has the soap dropped below the 'refill' line? Add tap water again to the 'max' line and refill with 1 Fizzy Flo tab.

For use in a refillable dispenser, dose 1 Fizzy Flo tab to 250 ml of water.
