

# Technical Data Sheet – IPS SatWipes with Ethanol 70 in a bucket

Based on Sontara Material 9948 / 9960

## Product Description

Disposable wipes for cleaning and disinfection in industry areas. The wipes are exceptional for flat surfaces and industry equipment. Treatment time against vegetative bacteria, yeasts and viruses is 1 minute in accordance to European standards. Test report and documentation for disinfection effect against Norovirus at 30 second impact can be obtained.

Colour	Size (mm)	Number of wipes / bucket	Buckets / Case	Cases / pallet	Product number
Turquoise / White	165 x 300	200	3	40	7100HA

## Usage

IPS SatWipes with Ethanol 70% can be used for disinfection of surfaces, where you want a reduction of bacterial or fungal quantity, as well as for disinfection tasks. No need for rinsing after usage.

### Areas of Usage:

- Food industry
- Hospitals
- Surgical theaters
- Bathrooms
- Laboratories
- Kitchens

## Technical Characteristics

These wipes are being classified according to ADR as UN3175/UN1170. This means solids containing flammable liquid.

IPS SatWipes with Ethanol 70% are approved by the Danish Ministry of Food, Agriculture and Fisheries with J.nr. 2016-29-7105-00164/MAKIR and can therefore be used as a surface disinfectant for food processing and production facilities, dairy production facilities and on fishing vessels with storage of fish for more than 24 hours, in accordance to § 2 no. 1 of the decree no. 134 of 11/02/2013 regarding approval of disinfectants and antiseptics in food establishments etc.

Dispensation has been giving for rinse with water afterwards.

Sontara® 9948 / 9960 has Food Contact Clearance and is colored Turquoise / White.

## Benefits of pre-saturated wipes

The system of pre-saturated wipes provides economic, environmental and safety advantages for users compared to the method of using loose solvent with cloths. It helps to:

- Standardize cleaning and preparation operations
- Improve quality and production line performance
- Lower the quantity of product used
- Reduce waste; for the same surface, the volume of wipes used is 5 to 10 times less than the volume of traditional cloths
- Reduce VOCs (Volatile Organic Compounds) by 65% to 100% as targeted by the European Legislation
- Improve users' safety; drastically reduces the quantity of solvent released in the atmosphere. No risk of accidental spillage of drums full of flammable liquids (fire hazard). Pre-saturated wipes are easy to use, handle and store compared to cloths and solvent drums

## Precautions for transportation, use and storage

Ethanol 60 - 70%

Propan-2-ol < 10%

For specifications and requirements – see current legislation regarding ADR/RID/IMDG/ICAO

1170 & 3175

UN proper shipping name: SOLIDS CONTAINING FLAMMABLE LIQUID (Ethanol solution).

Transport hazard classification: 4.1
